

# Home School Families

**We are willing to work with you!**

The number one reason parents choose a home schooled model is because there is no flexibility. GVA has been formed to work with parents on all levels of education to create an individualized experience for the student.

We are willing to:

1. Work with parents on curriculum and adapt it to meet educational goals.
2. Form an individualized education for your child.
3. Provide a completely free education.

We have many options available and we have the ability to modify classes to meet educational needs.

We are willing to try! Call us today!

*Creatively educating our students through positive relationships*

## Our Offerings Include:

### **One-on-One Tutoring:**

Tutoring services are available in our learning lab to assist all students. Our Garaway teachers will provide a positive educational experience for every student. They will use the same methods for your child that have marked as excellent for decades.

### **Free Laptops for Enrolled Students:**

Each student in our program will receive the same free computer that all our Garaway students receive for educational usage. This technology will follow the student throughout their scholastic career at our academy.

### **A Free Digital Education:**

The cost of an effective digital curriculum can add up to thousands of dollars. We provide award-winning courses absolutely free of charge. We feature a curriculum with a multitude of options that is individualized for your student.
